## Department Newsletter

---

*Milling Science has new 50- and 25-pound Willie's Pride flour bags. Thanks to Premier Tech for donating the heat sealer and to Hood Packaging and ProAmpac for donating the bags.*

---

### **Milling Science Club Prepares for Annual Holiday Sale**

The Milling Science Club has begun to pack product for their annual Holiday Sale. Watch the Milling Science Facebook page and this space for information on how to order. All orders must be picked up in Manhattan or from a student as we are unable to ship product at this time.

### **Lesaffre Visits Bake Club**

Sherrill Cropper, Jim Gluhosky, Stephan Meillier, and Joanne Sullivan from Lesaffre/Redstar Yeast visited Bakery Science Club on September 27. They presented information about job opportunities as well as demonstrating several traditional French baked treats including croissants, Pan au chocolat, Baguettes, and sourdough. Club members shaped each product and were able to take home samples.

### **K-State Grain Science Students Attend Las Vegas Baking Expo**

Hulya Dogan, Elisa Karkle, and Aaron Clanton took a group of 21 students to the International Baking Industry Expo (IBIE) in Las Vegas. The event is hosted by ABA and DEMA. Dean Minton joined the group for a day where students and faculty were able to meet and network with industry leaders. Each student was paired with someone from the industry to walk around the show floor to mentor them and introduce them to other individuals to grow their network. We thank ABA and BEMA for their support of our group to attend this premier baking industry show.

---

*Participants in the annual Grain Science Friends and Alumni Golf Tournament held September 9 enjoyed great weather and a large turnout at Rolling Hills Golf Course near Junction City. Thank you to everyone who played, and special thanks to the sponsors and those who provided items for the benefit auction that supports the department.*

---

### **Our Mission**

*The mission of the Department of Grain Science and Industry is to advance the global grain and plant-based food, feed, and bioproduct industries through scholarship, research, and outreach.*
